The IDS mat: the barrier against dirt

To choose the right mat, ask yourself the right questions:

**Where is the mat LOCATED?**

<table>
<thead>
<tr>
<th>Indoor</th>
<th>Covered outdoor</th>
<th>Outdoor</th>
</tr>
</thead>
</table>

**What is the FUNCTION of the mat?**

<table>
<thead>
<tr>
<th>Scraper</th>
<th>Absorbent and scraper</th>
<th>Absorbent</th>
</tr>
</thead>
</table>

**What is the traffic INTENSITY?**

<table>
<thead>
<tr>
<th>Regular traffic</th>
<th>Important traffic</th>
<th>Intense traffic</th>
</tr>
</thead>
<tbody>
<tr>
<td>500 passages/day</td>
<td>500 to 1000 passages/day</td>
<td>&gt;1000 passages/day</td>
</tr>
</tbody>
</table>

The various qualities of fibers and backing of our absorbent mats:

<table>
<thead>
<tr>
<th>The fiber</th>
<th>The backing</th>
</tr>
</thead>
<tbody>
<tr>
<td>Excellent</td>
<td>Polyamide</td>
</tr>
<tr>
<td>Very good</td>
<td>Microfibers</td>
</tr>
<tr>
<td>Good</td>
<td>Polypropylene</td>
</tr>
<tr>
<td></td>
<td>Rubber</td>
</tr>
<tr>
<td></td>
<td>Rubbered PVC</td>
</tr>
<tr>
<td></td>
<td>PVC</td>
</tr>
</tbody>
</table>

---

The various types of mats:

- **Scraper mats**
- **Absorbent mats**
- **Sanitary gratings**
- **Rubber gratings**
- **Rubber rolls**
- **Chair mats**
- **PVC slabs**

Our strengths

After having implemented a management system that complies with the requirements of the ISO 9001 version 2015 standard, we note that this improves our service to our customers by respecting their requirements. This quality approach has also helped us to get closer to the certification or standardization institutions (such as LNE, Veritas ...), which is very positive for the sustainability of our products and our activities. The Management reiterates its commitment to provide the necessary resources to continue to improve the satisfaction of its customers and the competitiveness of the company, while ensuring respect for the safety of each and the environment.

Member of amfori, ID Group is committed to respecting the principles of open and sustainable trade (respect for the labor code, business ethics, non-use of child labor, non-discrimination, environmental protection ...) We improve the social performance of our supply chain via amfori BSCI.

REACH REGULATION
IDS commits itself to the respect of the REACH regulation by banishing from its products all the substances harmful for the man and for the environment.

Robust rubber grating

The sturdy one

Composition:
100% Rubber

Applications:
- pits, airlock, high-traffic entrance areas, garages, ski resorts, footbridges or outdoor stairs, etc.

Advantages:
- very efficient against dirt, mud, moisture, snow
- draining thanks to its studs on the underside
- ultra robust
- easy to clean
- non-slip

Colour:
black

Info: cutting on request for M69

Standard rubber gratings

The everlasting

Composition:
100% Rubber

Applications:
pits, airlock, high traffic entrance areas, garages, walkways or exterior stairs, access roads, ...

Advantages:
- very efficient against dirt, mud, moisture, snow
- draining thanks to its studs on the underside
- ultra robust
- easy to clean
- non-slip

Colour:
black

+ Info:
- cutting on request
- grating with «closed bottom» on request
- brushes colours: grey, blue, yellow, red or green

**Thin rubber grating**

**Composition:**
- 100 % Natural rubber (M22 - black) or nitrile rubber (MPR22 - red*)

**Applications:**
- pits, airlock, entrance areas, kitchens, bars ...

**Advantages:**
- easy to clean thanks to its lightweight
- non-slip
- draining thanks to its studs on the underside
- very resistant
- oil & grease resistant (MPR22)

**Colours:**
- black (natural rubber) or red (nitrile rubber)

**Info:**
- cutting on request

Rubber gratings with bevelled edges

**Lightweight rubber grating with bevelled edges**

**Composition:**
- 100% Natural rubber (M24 - black)
- or nitrile rubber (MPR24 - red*)

**Applications:**
building entrance without pits, kitchens, bars ...

**Advantages:**
- bevelled edges for easy access
- draining thanks to its studs on the underside
- easy to clean thanks to its lightweight
- non-slip
- oil & grease resistant (MPR24)

**Colours:**
black (natural rubber) or red (nitrile rubber)

100 % modular slabs

Composition:
- 100 % Natural rubber (MB46 - black) or nitrile rubber (MB46PR - red*)
- possibility to manufacture various rubber quality on request: contact us

Applications:
kitchens, bars, walkways or outside stairs

Advantages:
- 100 % modular slab thanks to its unique connection system
- easy to clean thanks to its lightweight
- easy to transport, install and relocate
- thermal insulation
- marking of safety zones thanks to yellow corners and edges (Y)
- non-slip
- oil & grease resistant (MB46PR)
- self-weighted

Colours:

MB45 / MB45PR rubber gratings

100 % modular grating

Composition:
100 % Natural rubber (MB45 - black) or nitrile rubber (MB45PR - red*)
possibility to manufacture various rubber quality on request: contact us

Applications:
airlock, entrances with or without pits, kitchens, bars ...

Advantages:
- 100 % modular grating thanks to its unique connection system
- thin and economical grating
- excellent drainage and ventilation
- easy to clean thanks to its lightweight
- easy to transport, install and relocate
- marking of safety zones thanks to yellow corners and edges (Y)
- non-slip
- oil & grease resistant (MB45PR)

Colours:
black (natural rubber) or red (nitrile rubber)

Reference | Dimensions | Thickness | Weight
--- | --- | --- | ---
MB45 | 91 x 91 cm | 14,5 mm | 6,5 kg/p
MB45PR (nitrile) | 91 x 91 cm | 14,5 mm | 6,7 kg/p
BRA45N/BRA45PRN/BRAY45N | Black / red / yellow ramp
Ramp width: 6.5 cm | | 0,85 kg/p

* We reserve the right to deliver the nitrile quality in black

Non-contractual photos - Dimensions and weights are given for information purpose only - Product tolerance +/- 5%.
MR12 rubber grating

Rubber grating in roll

Composition:
100% Rubber

Applications: outdoor walkways or stairs, floor protection, access roads...

Advantages:
- the only rubber grating in roll
- compliant with the disabled standard LOGC940024A «holes or slots in the ground must be under 2 cm in diameter»
- draining thanks to its studs on the underside
- non-slip
- very good value for money
- very light, easy to set up
- roll presentation for convenient installation
- possibility to fix the ends of the roll using a threshold bar

Colour: black

+ Info: cutting on request

MR12 bevelled edges

Rubber grating compliant with «disabled» standard

Composition:
100% Rubber

Applications: supermarkets, hospitals, hotels, high schools, wet environments etc.

Advantages:
- compliant with the «disabled persons» standard LOGC940024A «the holes or slots in the ground must have a diameter smaller than 2 cm»
- bevelled edges allowing easy access for shopping carts and / or wheelchairs, and reduce the risk of falling
- highly resistant, ideal for high traffic
- non-slip and draining thanks to its suction cups it makes it possible to secure the slippery areas
- rot-proof and UV resistant, it can be used indoors and outdoors
- Very thin; light and easy to install

Colour: black - Other colours on request

M25 / M26 rubber grating

Sturdy rubber grating compliant with «disabled» standard

Composition:
100 % Rubber

Applications:
entrances of public buildings, footbridges or external staircases, pits, locks, ski resorts, ...

Advantages:
- compliant with the disabled standard LOGC940024A «holes or slots in the ground must be under 2 cm in diameter»
- antislip surface
- bevelled edges for easy access
- draining thanks to its pinned backing
- self-weighted slabs that ensure perfect ground adhesion
- very robust thanks to its density
- non-slip

Rubber Tactile Slabs

**To warn visually impaired or blind persons and signal a danger**

**Composition:**
100 % Rubber

**Applications:** To lay 50 cm ahead from danger, obstacle or level change: stairs, lifts, pedestrian crossings, platform edges ...

**Advantages:**
- warn the visually impaired of a danger
- easy and quick installation
- non-slip
- compliant with NF P 98-351 standard
- indoor or outdoor installation
- fabric impression on the lower surface for easy gluing

**Laying:** Degrease the underside.

Glued with two-component polyurethane glue (page 59)

**Colours:** black, grey, yellow, or white

**+ Info:** wear indicator

**TACTILE GUIDANCE STRIPS**

**To guide blind or visually impaired persons**

**Composition:**
100 % Rubber

**Applications:** To place on roads or in public areas far from dangerous situations (pedestrian crossings, complex crossroads, roundabouts, obstacles, dangers ...)

**Advantages:**
- discreet and effective guide that indicates the direction to follow
- reassures blind and visually impaired persons
- compliant with NF P 98-352 standard
- thanks to the contrast of texture and color, the visually impaired person can detect the change of relief with his cane or directly under his sole
- non-slip

**Laying:** Degrease the underside and roughen by sanding.

Glued with polyurethane glue (page 59)

**Colours:** black, white or grey

- wear indicator

POLYCOFLOOR SUPER

Very resistant and efficient coir like mat

Composition:
needled polypropylene fibers on recycled rubber backing

Applications:
scraper and absorbent mat for regular or high traffic. For pit use only.

Advantages:
- self-weighted
- high resistance to high traffic
- more durable than coir mat
- holds and conceals dirt with needled fibers
- do not plush
- easy cutting

Colours: natural or black
+ Info: cutting on request

POLYCOFLOOR

Lighter and more efficient than traditional coir mat

Composition:
needled polypropylene fibers on closed cell foam backing

Applications: scraper and absorbent entrance mats for pits for regular or intense traffic. For pit use only.

Advantages:
- high resistance to intense traffic
- easy to install thanks to its lightweight
- easy cutting
- holds and conceals dirt with needled fibers
- do not plush

Colours: natural or anthracite grey

**The professional customizable mat**

**Composition:**
100% Nylon 6.6 polyamide fibers on non-slip nitrile rubber backing

Pile weight: 680 g/m²

**Applications:**
High-durability mat for strategic locations such as entrances, public buildings, industrial and commercial buildings, in front of vending machines, etc.

**Advantages:**
- Long-lasting color retention thanks to deep ink projection into the fibers (Jet Print)
- Extremely robust and efficient
- Washing machine
- Smooth backing
- Very durable nitrile rubber border and backing
- Prolongs the floor lifespan
- Reduces the cleaning frequency
- Easy passage for wheelchairs and mobility impaired persons
- Possibility to create your Jet Print TAPILOGO with 16 different colors per mat

**Colours:**
See color chart

**+ Info:**
For optimal quality, send us a vector file (format AI, EPS, PDF or SVG) CMYK. Otherwise, send us a high definition JPG file.

The N°1 for high performance

Composition:
- 100% twisted polyamide fibers on 100% nitrile rubber backing with non-slip studs
- Pile weight: 800 g/m²

Applications:
- all high traffic areas: corridors, entrances, meeting rooms, elevators, landings, halls, ...

Advantages:
- very long durability
- very absorbent fibers
- effective over time
- perfect adherence on all types of floors (tiles, carpet, wood floor...) thanks to its unique backing
- the mat does not slip thanks to the anti-slip studs
- hygienic
- rot-proof
- washing machine at 40°C

Colours: grey, brown, beige, rouge, taupe, or black

High-end performance

**Composition:**
mono and multi-filament 100 % polyamide fibers on reinforced PVC backing

*Pile weight:* 1420 g/m²

**Applications:**
- high-grade, ultra-absorbent, scraper mat for heavy traffic and traffic areas

**Advantages:**
- exceptional performance to protect the floor against the dirt
- ultra resistant
- very high absorption capacity
- high-end scraper fibers
- always keep an exceptional appearance

The anti-dust mat

Composition:
100% polypropylene fibers on PVC backing
Pile weight: 550 g/m²

Applications:
Absorbent mat for all types of important traffic: corridors, entrances, meeting rooms, elevators, landings, halls...

Advantages:
- absorbent fibers
- velvet touch aspect
- the ideal anti-dust mat for your entrance
- floor protection
- holds dirt
- masks dirt thanks to its speckled fibers

Colours: grey, brown or red

+ Info: custom made dimension on request

**ABSORGRAT**

**Tri-zone mat ultra scraper and ultra absorbent**

**Composition:**
100% scraper and absorbent polypropylene fiber on vinyl backing

_Pile weight: 750 g/m²_

**Applications:** absorbent and scraper mats for all types of intense traffic (entrances, corridors, meeting rooms, landings, elevators, halls ...)

**Advantages:**
- 2 in 1: scraper and absorbent mat
- triple zone mat (scraper, mixed, and absorbent)
- very resistant
- the ideal anti-dust mat for your entrance
- floor protection
- holds dirt and moisture

**Colour:** black

---

**BIGRAMAT**

**2 in 1 mat: Ultra scraper and ultra absorbent**

**Composition:**
Double scraper and absorbent polypropylene fibers on PVC backing

_Pile weight: 700 g/m²_

**Applications:**
Absorbent and scraper mat for regular traffic

**Advantages:**
- 2 in 1: scraper and absorbent mat
- the ideal anti-dust mat for your entrance
- floor protection
- holds dirt and moisture
- very good value for money

**Colours:**
Bicolour grey / black

Gratings for use in wet environments

**Composition:**
polyethylene and EVA

**Applications:**
- private pools, bathrooms, shower cabins, saunas, changing rooms, fitness centers, sports centers ...
- banned in public pools

**Advantages:**
- non-slide surface thanks to studs
- ingenious structure allowing immediate drainage
- roll made of disconnecting strips 10 cm wide
- infinite length possible thanks to connections
- comfortable to walk barefoot
- odorless material
- antibacterial and fungicidal treatment for long-term protection
- soundproofing
- resistant to temperature variations: -35°C to +70°C
- classification A, B and C according to DIN 51097 standard for slip resistance

**Colours:** blue or grey

**+ Info:**
- custom length
- 3 to 4 connections per meter

Professional gratings for use in wet environments

Composition:
Flexible PVC

Applications:
- private pools, bathrooms, shower cabins, saunas, changing rooms, fitness centers, sports centers ...
- banned in public pools

Advantages:
- antibacterial and fungicidal treatment
- original concept allowing drainage of water from all sides
- non-slip: C-group according to DIN 51097
- comfortable
- easy to install
- resistant to temperature variations (-5 °C to +60 °C)
- available in various widths and lengths
- draining

Colours:
wide choice of colours, see colour chart below

+ Info:
- junctions available on request (reference EHA96 and EHA93) to attach one grating to another (3 to 5 fittings per meter)
- bevelled edges available upon request (for ref EHA96 and EHA93)

Reference Standard widths Standard lengths Custom length Thickness Weight
EHA88 60, 80, 100 cm 10 m All lengths up to 20 m 12 mm 6.0 kg/m²
EHA96 40, 60, 80, 100, 120 cm 10 m All lengths up to 30 m 12 mm 5.5 kg/m²
EHA93 40, 50, 60, 80, 100, 120 cm 10 m All lengths up to 30 m 14 mm 6.8 kg/m²

Optimum protection for your office's floors

**Composition:**
100% clear polycarbonate or 100% polyethylene
(only ref DESSOUSCHAISE89119).

**Applications:**
chair mat for offices and homes

**Advantages:**
- extremely robust
- pleasant to use (caster chairs move easily, without friction)
- good heat resistance: suitable for heated floors
- adapted for disabled people
- suitable for allergy sufferers: PVC and vinyl free
- **Studded** chair mat: optimal protection of rugs and carpets + non-slip (adheres to the ground thanks to studs that protect the pile of rugs and carpets)
- **Smooth** chair mat: effective protection of hard and smooth floors (parquet and laminate, tiles, concrete, marble, ...) + non-slip (adheres to the ground thanks to its non-slip back, without leaving a trace)

**Colours:**
transparent

Anti-contamination mat

The peelable mat: the trap for all soils

Composition:
- polyethylene sheet

Applications:
laboratories, clean rooms, hospitals, any sterile place...

Advantages:
- very effective way to remove all dirt and dust thanks to the sticky surface
- 30 numbered adhesive sheets for easy count
- each sheet can be used several times before being removed
- adhesive lower surface for better adherence
- easy to use
- hygienic

Colour:
White

**Custom made rubber mat**

**Composition:**
manufactured rubber (different grades: natural rubber, SBR, nitrile, EPDM, anti-abrasion ...)

**Applications:**
protection of industrial floors as well as shelves or workbenches, gaskets, strips, bibs ...

**Advantages:**
- non-slip
- soundproofing
- excellent resistance to wear and tear

**Colours:**
according to quality

**+ Info:**
effects with or without fabric inlay, with fabric imprint on the lower surface for ease of gluing and in different thicknesses: please contact us

**IDS Ramp**

**Special mat for cattle truck ramp**

**Composition:**
100% Rubber

**Applications:**
mat for cattle truck ramp made of wood or iron

**Advantages:**
- avoids all slip risks during the ascent and descent of animals
- very robust rubber mat
- save time when loading animals
- reduces trampling noise

**Colour:** Black

**+ Info:** cutting on request

Sports rubber floorings

Composition:
85% fine recycled tire rubber granules (black) and 15% colored EPDM granules

Applications:
corridors, stairs, walkways, ramps, sports halls, ski resorts, ski rentals, toilets, locker rooms, ice rinks etc.

Advantages:
- robust and insensitive to water
- sound and heat insulation
- aesthetic and decorative
- non-slip
- high wear resistance
- porous, facilitates drainage
- noise and shock absorbent
- non-slip

Laying:
glued with polyurethane glue

Colours:
SPORTNEIGE: Black/Grey
IDNEIGE: Black/Blue
Other colors on request

**The top of the rubber flooring**

**Composition:**
- Délineige grey / black: 65% of colored EPDM granules and 35% of black EPDM rubber granules, agglomerated with a polyurethane binder
- Monotone Délineige: 100 % colored EPDM granules bonded with a polyurethane elastomer

**Applications:**
busy outdoor facilities: cable cars, gondolas, school grounds, nurseries, terraces, games rooms, swimming pools, sports facilities ...

**Advantages:**
- flexible
- robust and insensitive to water
- non-slip
- sound and heat insulation
- high resistance to wear, aging and UV
- shock absorbent
- porous, facilitates drainage
- excellent resistance to stress and mechanical influences
- aesthetic and decorative

**Laying:** glued with polyurethane glue (1 to 1,5 kg / m²)

**Colours:** speckled or unicoloured (see color chart)

**Recycled rubber roll**

**Composition:**
recycled rubber aggregates agglomerated with a polyurethane binder

**Applications:**
indoor and outdoor use: gymnasiums, ice rinks, fitness centers, sports floors, nurseries, schools ...

**Advantages:**
- flexible
- non-slip
- sound and heat insulation
- improves walking comfort
- resilient rubber (shock absorber)
- porous, facilitates drainage
- easy to maintain and insensitive to water

**Laying:** glued with polyurethane glue
(1 to 1.5 kg / m²)

**CLIP SUPER**

**Robust interlocking rubber slabs for various applications**

**Composition:**
100% Rubber

**Applications:**
winter sports resorts, walkways, floor protection

**Avantages:**
- self-weighted
- hyper resistant
- excellent thermal and acoustic insulation
- easy installation and reimplantation without gluing thanks to the puzzles
- very non-slip surface
- grooved lower surface draining moisture

**Colour:** black

**CLIP 18 SLABS**

**Very sturdy interlocking rubber slabs**

**Composition:**
100% Rubber

**Applications:**
- Ice rinks, sports halls, changing rooms, winter sports resorts ...

**Advantages:**
- Self-weighted
- Hyper resistant: resist the passage of ice resurfacer (nail tires)
- Excellent thermal and acoustic insulation
- Easy installation and reimplantation without gluing. Cutting with a cutter knife
- Non-slip surface
- Grooved lower surface draining moisture

**Colours:**
- Black, blue, grey, green or red

Special interlocking rubber slabs for ice rinks and winter sports resorts

Applications: ice rink laps, sports facilities, winter sports resorts …

Advantages:
- comfort
- security
- sound and heat insulation
- quick installation and without gluing
- easy to relocate
- non-slip
- high resistance to abrasion

Colours: black

SOLID SPORT SLABS

Sports flooring combining aesthetics and performance

Composition:
100% Rubber

Applications:
Highly frequented areas (ice rinks, winter sports resorts ...)

Advantages:
- two-layer flooring: damping lower layer, highly wear-resistant upper layer
- non-slip
- soundproofing
- aesthetic

Laying: glued with polyurethane glue

Colours:
speckled grey, speckled blue, speckled red
Other colors on request

IDS Glue

Two component polyurethane glue

Composition:
polyurethane (5.0 kg) + hardener (0.7 kg), kit of 5.7 kg

Applications: for all indoor and outdoor flooring, rubber slabs or tiles, rubber carpeting and synthetic turf

Advantages:
- suitable for bonding on many substrates and for coatings such as concrete and plywood
- recommended for intensive use
- can be subject to significant temperature variations thanks to its flexibility

Laying: polymerization time at 5 °C minimum: after 24 hours for opening to pedestrian traffic, after 48 to 72 hours for an opening to heavy traffic.

Non-contractual photos - Dimensions and weights are given for information purpose only - Product tolerance +/- 5%.
